

I just wanted to take a minute to give an update on Remy, our GSD, who was there for a boot camp in early October. We brought her in with high hopes of bringing home a better mannered girl and I can say without hesitation our expectations were exceeded on every level. A special thanks to Josh (who did our evaluation) and Amber (who did our final training session). The time and attention they both provided us was exceptional. It sounds so simple and easy, but the truth is we just didn't know how to make her "listen" consistently. She is now such a pleasure and even seems to be proud of herself! :) A well behaved dog is a joy. She is able to participate in so many things that she wasn't able to before ... case in point I took her out with myself and oldest son for 2 hours of trick or treating and she was such a lady ... waiting (and sitting) patiently with me at the end of the driveway at each house. Many people commented on her and her manners! We have even been able to have her off leash in large areas to play extreme tennis ball fetch! We still need to work a bit on over excitement with new people/situations, but at 9 months old we are very happy with her and feel we have the tools to continue to progress. We hope to bring her back for some group classes after the busy holiday season. Thank you again!
